

SMARTSENSE ONE MONITOR

Improve Efficiency, Mitigate Loss, and Regain Margin

Protect tight grocery margins with a solution for refrigeration and freezer asset health, ensuring food safety and no business disruption.

Condition Monitoring & Asset Management

Our Monitor module delivers comprehensive condition monitoring and asset management designed for enterprise-scale retail operations.

Prescriptive Workflows

Move your retail teams from reactive to proactive with prescriptive workflows and accurate alarming for corrective action.

Intelligence Visualization

Accelerate your understanding of refrigeration and freezer assets, so you can take actions that protect revenue and ensure a quality customer experience.

Automated Compliance Reporting

Eliminate the headache of disparate retail systems with Monitor's AI-supported compliance and asset health reporting system.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Food safety, quality, & HACCP monitoring with probe and sensor integration.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"If we lose a bank of frozen ice cream, doesn't take long for that to be a spoilage, and it's \$60-70, \$80,000 in a heartbeat. We typically have multiple saves every year... we're able to take swift and immediate action to remedy that because we're notified, and that's something we did not have before."

Dana Glade, Director of Operations, Jerry's Enterprise
