

SMARTSENSE ONE OPERATE

Enhance Performance & Facilitate Team Accountability

Leverage the power of prescriptive workflows and accuracy in employee guidance to mitigate retail risk and boost execution performance.

Lists

The Operate module provides digital checklists that facilitate proactive retail execution and straightforward SOP adherence.

Workflows

Configure and adapt retail operations workflows with flexible building blocks designed for store-level precision and brand-scale control.

Operations Management

Easily publish checklists for all operations functions with associated SOPs to empower retail teams with prescriptive guidance.

Automated Compliance Reporting

Track task completion rates and safety exceptions across all retail locations—filter by store and individual employee.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Food safety, quality, & HACCP monitoring with probe and sensor integration.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"If we lose a bank of frozen ice cream, doesn't take long for that to be a spoilage, and it's \$60-70, \$80,000 in a heartbeat. We typically have multiple saves every year... we're able to take swift and immediate action to remedy that because we're notified, and that's something we did not have before."

Dana Glade, Director of Operations, Jerry's Enterprise
