

SMARTSENSE ONE MONITOR

Ensure Patient Safety, Vaccine Efficacy, and Medication

Improve patient safety with a solution for refrigeration and freezer asset health, ensuring no disruptions to clinical care delivery.

Condition Monitoring & Asset Management

Our Monitor module delivers comprehensive condition monitoring and asset management designed for high-level performance across a range of healthcare environments.

Prescriptive Workflows

Move your safety operations from reactive to proactive with prescriptive workflows and accurate alarming for corrective action.

Intelligence Visualization

Accelerate your understanding of refrigeration and freezer assets, so you can take actions that protect patients and ensure a quality care experience.

Automated Compliance Reporting

Eliminate the headache of disparate systems with Monitor's AI-supported compliance and asset health reporting system.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within individual core modules that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Food safety, quality, & HACCP monitoring with probe and sensor integration.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"There was an increased demand from the industry to improve our temp monitoring continuously. And so we set out to figure out who could provide that, and SmartSense was a clear number one for us."

Chandler Peebles, Executive Director, Strategic Operations, ObjectiveHealth
