

SMARTSENSE ONE OPERATE

Enhance SOP Adherence & Facilitate Staff Accountability

Leverage the power of prescriptive workflows and accuracy in staff guidance to mitigate safety risk and boost SOP adherence.

Lists

The Operate module provides digital checklists that facilitate proactive protocol execution and straightforward SOP adherence.

Workflows

Configure and adapt workflows with flexible building blocks designed for unit-level precision and system-wide control.

Operations Management

Easily publish checklists for all operations functions with associated SOPs to empower staff with prescriptive guidance.

Automated Compliance Reporting

Track task completion rates and safety exceptions across all network locations—filter by location and individual employee.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within individual core modules that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Food safety, quality, & HACCP monitoring with probe and sensor integration.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"There was an increased demand from the industry to improve our temp monitoring continuously. And so we set out to figure out who could provide that, and SmartSense was a clear number one for us."

Chandler Peebles, Executive Director, Strategic Operations, ObjectiveHealth
