

SMARTSENSE ONE MONITOR

Eliminate Medication Waste and Inventory Loss

Meet CDC, VFC, FDA, and BOP compliance regulations with automated temperature and humidity monitoring with prescribed corrective actions.

Condition Monitoring & Asset Management

Our Monitor module delivers comprehensive condition monitoring and asset management designed for excellence in pharmacy operations.

Prescriptive Workflows

Move your pharmacy teams from reactive to proactive with prescriptive workflows and accurate alarming for corrective action.

Intelligence Visualization

Accelerate your understanding of pharmacy refrigeration and freezer assets, so you can take actions that protect revenue and ensure a quality customer experience.

Automated Compliance Reporting

Eliminate the headache of disparate pharmacy systems with Monitor's AI-supported compliance and asset health reporting system.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Automate compliance and connect exceptions to tasks.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"We have 2,200 pharmacies and we have 200 clinics. So finding something that was good for everybody was a challenge. We looked at a few systems before we decided SmartSense was the one for us."

Christina Nadeau, Manager of Equipment & Functional Support, Kroger Health
