

SMARTSENSE ONE OPERATE

Enhance Performance & Facilitate Staff Accountability

Leverage the power of prescriptive workflows and accuracy in staff guidance to mitigate pharmacy risk and boost execution performance.

Lists

The Operate module provides digital checklists that facilitate proactive pharmacy execution and straightforward SOP adherence.

Workflows

Configure and adapt pharmacy operations workflows with flexible building blocks designed for store-level precision and brand-scale control.

Operations Management

Easily publish checklists for all operations functions with associated SOPs to empower pharmacy staff with prescriptive guidance.

Automated Compliance Reporting

Track task completion rates and safety exceptions across all pharmacy locations—filter by store and individual employee.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Automate compliance and connect exceptions to tasks.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size & material variants.

Customer Success, Prioritized

"We have 2,200 pharmacies and we have 200 clinics. So finding something that was good for everybody was a challenge. We looked at a few systems before we decided SmartSense was the one for us."

Christina Nadeau, Manager of Equipment & Functional Support, Kroger Health
