

SMARTSENSE ONE SCHEDULE

Track & optimize labor costs in real-time

Prevent overspending with a scheduling solution that saves general managers' time and gives your staff the self-service tools they need.

Smart Shift Planning

Save and reuse standard shift patterns for common staffing models with built-in availability management and conflict detection.

Optimize Labor

Manage labor costs efficiently by aligning staffing to forecasted demand, sales, and production volumes.

Mobile Management

Reduce the chaos of shift swaps and PTO approvals by providing your restaurant team with a fully mobile experience—all guided by defined rules and role-based permissions.

Team Communication

Easily share critical information with your teams via mass email and SMS messaging, ensuring company-wide alignment.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **7 core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring and understanding of asset health.

Service

Identify issues before failures, track assets, and capture work orders.

Operate

Checklists, tasks, and SOPs with real-time accountability.

Guard

Food safety and HACCP monitoring with probe and sensor integration.

Assure

Digital audits, inspections, and follow-up actions.

Label

Integrated labeling and printing solution.

Schedule

Scheduling, time tracking, and team compensation.

Customer Success, Prioritized

"SmartSense has performed above our expectations frankly, which were already pretty high. They have a great team, from implementation to the person that you're going to be working with day in and day out. You really feel like you're supported and like it's a partnership and that's been a great experience all around."

JP Thomas, VP of Operations Services, honeygrow
