

SMARTSENSE ONE ASSURE

Transform audit findings into actionable guidance and follow-up accountability

Eliminate the gap between inspection and improvement with enterprise-grade compliance and quality oversight.

Reusable Audit Templates

Create reusable audit templates with weighted scoring, branching logic, and auto-fail conditions that reduce the burden on warehouse staff.

Automated Corrective Actions

Empower your warehouse teams with guided follow-up actions that populate automatically in Operate to ensure the resolution of all non-compliance items.

Gamified Governance

Rank warehouse sites and auditors to drive continuous improvement and identify recurring non-conformance with built-in benchmarking and leaderboards.

Audit-Ready Reporting

Expedite compliance reporting with branded, exportable PDFs with scores, photos, and corrective actions.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Customer Success, Prioritized

"I think the biggest thing that we have seen since SmartSense was rolled out is just the consistency in our temperature monitoring. We know and understand our refrigeration systems better now than we did before, because with the continuous tracking we can see if there's historical events and know if maybe a compressor isn't running right or something isn't working and then we can put a corrective action in place to make that refrigeration system work as efficient as possible."
