

SMARTSENSE ONE MONITOR

Improve Efficiency, Eliminate
Waste, and Regain Margin

Protect tight margins with a solution for refrigeration and freezer asset health, ensuring safe inventory and no business disruption.

Condition Monitoring & Asset Management

Our Monitor module delivers comprehensive condition monitoring and asset management designed for enterprise-scale supply chain operations.

Prescriptive Workflows

Move your supply chain teams from reactive to proactive with prescriptive workflows and accurate alarming for corrective action.

Intelligence Visualization

Accelerate your understanding of refrigeration and freezer assets, so you can take actions that protect revenue and ensure product quality throughout transit.

Automated Compliance Reporting

Eliminate the headache of disparate supply chain systems with Monitor's AI-supported compliance and asset health reporting system.

SmartSense ONE

SmartSense ONE unifies the platform's capabilities within **multiple core modules** that are intentionally designed to work together, creating a more powerful, connected system.

Monitor

Real-time condition monitoring & understanding of asset health.

Service

Identify issues before failures, track assets, & capture work orders.

Operate

Checklists, tasks, & SOPs with real-time accountability.

Guard

Automate compliance & connect exceptions to tasks.

Assure

Digital audits, inspections, & follow-up actions.

Label

Smart label printing management for size and material variants.

Customer Success, Prioritized

"I think the biggest thing that we have seen since SmartSense was rolled out is just the consistency in our temperature monitoring. We know and understand our refrigeration systems better now than we did before, because with the continuous tracking we can see if there's historical events and know if maybe a compressor isn't running right or something isn't working and then we can put a corrective action in place to make that refrigeration system work as efficient as possible."

Jesse J. Gross, Senior Director of Facilities, East Coast Warehouse
